Reopening Your Business in Littleton

The City of Littleton and those operating a business within the city are legally bound to follow regulations provided by the Colorado Department of Public Health and Environment (CDPHE) and Tri-County Health Department (TCHD). Orders and updates change frequently and staying current and interpreting regulations is challenging. The city staff is keeping you informed with the latest information.

To add your restaurant or business to the list and map please visit these online forms:
- Littleton Restaurants Offering Food Delivery/Takeout
- Littleton Retail & Service Business

As an increased number of businesses begin opening and operating under the CDPHE’s Safer-At-Home Order, TCHD announced their newly established Business Re-Opening Task Force. This Task Force was developed to support businesses as they operationalize COVID-19 plans for reopening.

The Business Re-Opening Task Force will be available throughout the weekend and over the coming weeks from 8 a.m. to 5 p.m. to answer questions and provide guidance on requirements under the Safer-At-Home Order. Businesses can access this service through email at covidbusinessrecovery@tchd.org and by phone at 720-713-6030. Visit the Safer at Home Guidance for Businesses page for detailed information for various types of businesses.

Signs and Best Practices Available for Print:

| • Be Clean                      | • Best Practices for Local Recreation |
| • Best Practices for Offices    | • Social Distancing                  |
| • Best Practices for Retail     | • Sign for Facility Entry            |
| • Best Practices for Waiting Rooms | • Your Health Matters                |

Tri-County Health Department (TCHD)

All businesses are required to develop a COVID-19 Plan (hereto referred to as Plan) and deputize at least one employee to see it is implemented. The Plan should be communicated, by management, to all supervisors and employees on every shift. The Plan should include procedures for purchasing and keeping inventory of necessary materials and consider how the precautionary measures will affect workflow.
